

How to access your information on the MMH Patient Portal.

First fill out a registration form either at the hospital or online. You will then receive a welcome email containing a one-time user name and one time password. After receive your one time user name and password, use the link within the email to log onto the portal.

Enter your one time user name and one time password. You will them be asked to enter a new user name and re-enter your one-time password.

You are then prompted to enter a new password and confirm your new password. You will then be asked a security question. Log off of the portal and log back in using your new user and new password.

Once you are in the portal click on the HEALTH RECORD button to access you results and reports.
